

Guidelines for ECE Project-Based Program at MoTech Research Group

Project Proposal :The proposal must include the following information:

- Project title
- Project purpose (150+ words)
- Project main objectives (150+ words)
- Proposed methods (150+ words)
- Anticipated outcomes and impact of the project (150+ words)
- Project work plan (1 page Gantt chart)

Two steps:

- draft the proposal in word or latex and send to me for review
- I will send you an email to confirm the proposal, and after that, you can officially submit it through Kuali form

Project Timeline: [Select 8 month project](#)

Two-term or 8-month Project: final report to be submitted two weeks before the end of the second term in the project. *(Please note that missing this deadline may lead to student failure in the project).*

Term of Project Commencement/Project Approval	Final report submission deadline
Fall term	April 15 th
Winter term	August 15 th
Summer term	December 15 th

The project details and requirements depend on the type of the project, which may require software development and testing, simulation, modeling (assumptions, model details, validation, sensitivity analysis, limitations, etc.), laboratory experiments, design, etc.

Final Project Report Requirements

The final project report should be a technical report (monograph style), conforming to usual requirements for a standard technical report. The length of the report is a minimum of 30 (1.5 line spaced) pages with 12pt font excluding appendices.

When applicable, the suggested sections include (but are not limited to):

- Title page, table of content, list of Figures and Tables
- Acknowledgements
- Executive summary
- Abstract

- Introduction
- Project outline and objectives
- Theory
- Methodologies (available and the selected approach)
- Computer simulation, model predictions, sensitivity analysis ... (if any)
- Results and discussions
- Conclusions
- Recommendations
- Future work
- Nomenclature
- References
- Appendix: Calibration, raw data, algorithms, computer programs, etc.

Details of the project are decided based on agreement between the supervisor and student. The final project will be marked by the supervisor and approved by the MEng Associate Chair.
